Description

Pictures are for advertising purposes only

The subcompact Hyundai Kona is the whole package:

- Striking looks,
- engaging driving dynamics,
- and a comfortable cabin.

A pair of four-cylinder engines are available, the best of which is the turbocharged 1.6-liter that provides brisk acceleration and good fuel economy.

Its exterior turns heads, even two years after its introduction, but its cabin is more muted and feels grownup in both its design and execution.
