LDV has a global reputation for building world class commercial vehicles and the LDV G10 Van is no exception. In fact, nothing in its class comes close to matching the G10 for value and performance.

The G10 is available with a petrol or diesel engine, and with a manual or automatic transmission. It is spacious enough to fit 5.2m³ of cargo and offers easy access through two sliding doors and a rear lift tailgate. Plus it comes with Bluetooth, alloy wheels and a rear camera.

And all of this for a price that makes the G10 Van the best value one tonne van in Australia.
